DESCRIPTION

KeyFob is a compact, battery-powered, Zigbee compatible device that allows you to **ARM & DISARM** the smart security & alarm systems in your home at just a click of a button.

After a quick setup, the KeyFob is compact, easy to carry and sends signals to your security systems **up to 100m away** from your house without any Internet.

KEYFOB OPERATION	FUNCTIONALITY
Away Mode	A click activates the selected sensors that you want to **ARM** when you are **AWAY** from home
Stay Mode	A click activates the selected sensors that you want to **ARM** when you are **AWAY IN** your house
Disarm Mode	A click **DISARMS** all the activated sensors **IN** your home
Panic Mode	A click **sends message** in the format "[YOUR HOUSE NAME] HOGAR ASK FOR HELP" to your registered email id.

ADDING KEYFOB TO YOUR SMART HOME

• Open the Hogar SE App and go to **"Rooms"** & then **"All Devices"**. Click on "+" Button and select **"KeyFob"**. Follow the prompts on your App for subsequent steps.

• Use a Pin & hold the **"Reset Button"** for **5 seconds**.

• The **LED** starts blinking **GREEN** indicating the KeyFob has entered into **"Network Pairing Mode"**

• On successful pairing, the **LED** blinks **RED** for **3 seconds** and you receive a message on your Hogar SE App.

• If the pairing is not successful, the **LED** turns **OFF** from **GREEN**. Attempt again to trigger **Network Pairing Mode** by using the pin.

CONFIGURING SENSORS TO "STAY" & "AWAY" MODE

• Open the Hogar SE App and go to Settings.

• Click on **"Alarm Modes"** and then select:

• **STAY** => Select the sensors that need to be Armed when you are **IN** your house.

• **AWAY** => Select the sensors that need to be Armed when you are **AWAY** from your house.

   NOTE: Once configured, you can **ARM & DISARM** the selected sensors in **STAY, AWAY & DISARM** modes both through the KeyFob as well as a click from the **Security Section** of your Hogar SE App.
